## **1. Introduction**

First of all I would like to take the opportunity to thank *Mariusz Wojnar* who introduced me into the work – at first as his deputy and later as Qualifications Commissioner. Without the continuous help, support and guidance of *Mariusz* my work as QC would not have been possible.

Moverover I would like to thank Services Director *Austin Lockwood* for his always present support and advice.

The most important novelty during the last year has been the establishment and implementation of the new norms systems – Congress proposal 2016 – 015 Revised Norm Calculation in spring 2017. The most significant change is, that norms are calculated on an individual basis and that the tournament category is published for marketing purposes only.

Moreover the proposals 2016-016 (Minimum Opponent Rating for Norms) and 2016-017 (Revised Rating Rules) have come into effect. All these projects were successfully implemented due to the efforts of *Austin Lockwood*, *Mariusz Wojnar* and *Martin Bennedik*.

This year the QC has made the following proposals to the ICCF Congress

### **2017-016: Clarifying the Status of Isolated Players:**

This proposal aims at giving isolated the same or at least similar title chances compared to the members of a NF and to help them to establish a workable NF.

### **2017-019: Awarding medals for CCE/CCM Titles**

The new titles CCE and CCM have had a tremendous success – the new title holders are rightly proud of their new titles. As there are approximately several hundreds of new CCE and CCM titles, the cost of ICCF obtaining medals is likely to be high and it is not practicable to present the medals to all the new title holders. According to this proposal it is intended to continue with the practice to present medals to players who attend the Congress personally and to female players (until 2021) and to offer a possibility to the other new title holders to obtain a medal for their achievements without cost for ICCF.

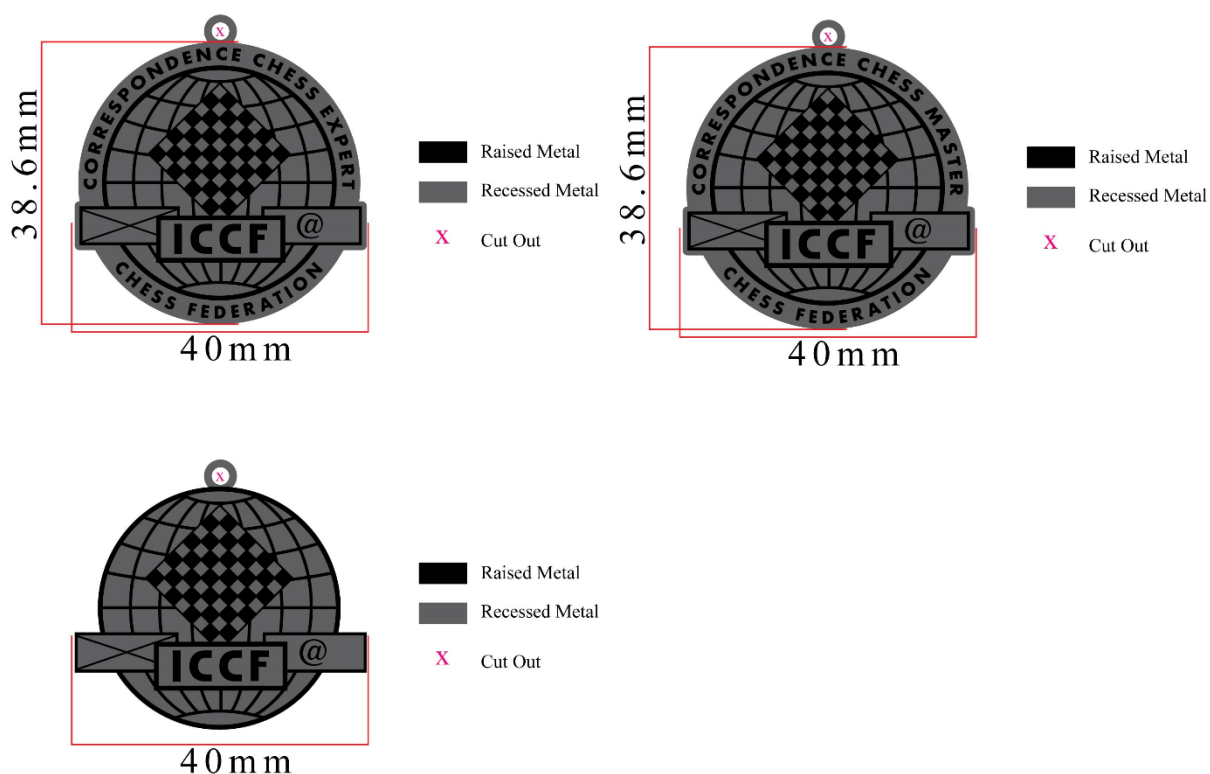

Since proposal 2017-019 was submitted, we have made some progress negotiating with suppliers of medals. When we wrote the proposal, we thought it unlikely that any medal supplier would be willing to sell and deliver medals to players individually, so we assumed that it would be necessary for medals to be handed to delegates at Congress as a batch, meaning that in some cases there could be up to a year between a player purchasing a medal and receiving it. We were aware that this was not a satisfactory solution, however could see no alternative at the time.

I am delighted to announce that we have now entered into a provisional agreement with a medal company that is willing to accept individual orders globally, so this will no longer be necessary. Players earning either the CCE or CCM titles will see a link on their homepage to a private page on the medal supplier's website, from where the medal can be ordered and will be dispatched worldwide within a few days.

The cost to the player of the medal will be between €5.00 and €10.00 EUR plus delivery; the company is located in the United Kingdom and the cost of delivery will vary depending on address (UK, European Union, or the rest of the world). It will also be possible for national federations to purchase their own stocks of the medals to alleviate the cost of distributing individual orders. It will be necessary for ICCF to pay some of the initial costs of producing the medals (approximately €400 EUR), however this will be returned to ICCF when the company have recovered their costs. In the long term, there will be zero cost to ICCF.

The design of the medals is yet to be finalised, however some proposals from the medal company are shown below:

## MA-170609-1 /40x38.4mm

### 2017-032: Title Norms – 70<sup>th</sup> Final of European Individual Championships – Postal

At present this tournament does not meet directly the requirements mentioned in Appendix 2 items d (“at least 3 ICCF affiliated federations shall be represented”) and e (“not more than two thirds of the participating players shall be members of one and the same ICCF affiliated federation”) of the Tournament Rules. As the tournament consists of all sections (from the promotional to the final stage) these requirements are met. There have been similar cases in the past, e. g. the 16<sup>th</sup> Final of the World Cup.

I kindly ask all voting members of the Congress to support these proposals.

If you are interested in how many and which titles have been awarded since the last Congress, please feel invited to continue reading this report and the attachments – hopefully all useful and necessary information is included. If there are any questions, feel free to contact me.

## 2. Tournament Medals and Certificates

At the ICCF Congress 2017, the following tournament medals and certificates will be presented:-

### 28th World Championship Final

Engraved plate for World Champion no. 28 Ljubičić, Leonardo, 900070, CRO

|        |               |     |
